

Intensive Black Belt Training

Operational Excellence Training

Course overview

Our Lean Six Sigma Intensive Black Belt course is both a time- and cost-effective way to qualify as a Black Belt. You will receive the same high-quality and in-depth training as with our Black Belt course but in less than half the time. In order to provide the training in such a condensed time frame, the course has a five-delegate maximum and training begins even before entering the classroom and. Attendees are required to complete an array of eLearning prior to the training days to ensure they have the necessary level of knowledge to get the most out of their learning.

Over a few intensive days, one of our experienced Master Black Belts will teach you the tools and techniques to confidently lead a successful Lean Six Sigma project. Your trainer will employ a blended approach, using a range of teaching methods to accommodate all styles of learning and achieve the best learning outcomes for all students. The intensity of the course continues beyond classroom hours, as students are required to complete tasks and project work for the following session.

Designed for time-poor managers, directors and consultants, this rigorous course is stimulating and demanding. It is aimed at professionals at owner, director or senior management levels who need to fast-track their certification and will champion Lean Six Sigma in their business.

The average Black Belt will earn the company a minimum of seven times the cost of training in the first project they complete.

A certified Lean Six Sigma Black Belt can expect an average salary of £70,000. The top 10% earn more than £100,000.

100% Effective's Intensive Black Belt training has an average customer satisfaction rating of 4.9 out of 5.

Intensive Black Belt Training

Training objectives

Delegate Feedback

"I really enjoyed the course and I thought the material was excellent; comprehensive, explained in simple terms and very good value for money."

"Opens up your eyes to see the potential improvements you can make to your company."

"I wish I had known about Lean Six Sigma years ago, it would have helped our company enormously."

At the end of the Lean Six Sigma Intensive Black Belt training course you will be able to:

- Improve a business and processes using DMAIC and Lean Six Sigma across any function
- Apply Lean Six Sigma principles, tools and techniques and explain the concepts to others
- Lead Lean Six Sigma improvement teams to solve complex multi-functional problems
- Understand and implement change in a business
- Apply and understand the Voice of the Customer in all areas of business
- Collect and analyse data properly ensuring you make correct decisions
- Use data to find the root causes of problems
- Develop and implement solutions and ensure problems are solved permanently saving time, effort and money using advanced Lean Six Sigma methodologies
- Certify as a Lean Six Sigma Black Belt which can open the way for further professional and career development
- Act as a Lean Six Sigma ambassador for any business

Certification is achieved upon completion of the Black Belt training, an open book online exam and the successful submission of two projects.

What's in it for me?

After completing the course, you will receive one year's free online Black Belt training and three one-to-one follow-up coaching sessions as well as unlimited email support from your Master Black Belt. Your certificate will be recognised worldwide and affords you 170 CPD points.

The 100% Effective best practice approach to certification detailed above is more than enough to be considered certified by future employers. However, 100% Effective delegates who have completed training with us could comfortably pass the IASSC, BQF and ASQ exams if they wish to get their qualification endorsed by a third-party certification body. As 100% Effective is an accredited IASSC Training Provider™, we can arrange for you to sit the IASSC exam in order to have your qualification accredited by IASSC.

For more help and guidance on the right training course for you, just get in touch.
