Online Little's Law Training Course

Quality - Support - Innovation

Little's Law theory demonstrates that the more tasks we take on, the longer it will take to complete each task. It's an equation that is simple but effective and when applied correctly, it will transform both your personal and professional efficiency.

This online Little's Law time management training is interactive and engaging. There are varied examples throughout the course to give a clear understanding of the power of Little's Law and how to use it.

You will learn how to calculate your lead time to find the ideal improvements. You will gain essential project management skills to improve process speed, reduce excess inventory and increase overall efficiency.

Our online Little's Law course is CPD approved and comes with guaranteed certification and one CPD point. The course has a British English voiceover and is optimised for all devices.

You will have access to the course for one month and can retake the exam multiple times. We also offer lifetime support to assist in the continued success of your time management skills.

100% Effective's online Little's Law training has a high customer satisfaction rating, with an average score of 4.5 stars out of 5.
