Online Value Stream Mapping Training Course

Quality - Support - Innovation

Value Stream Mapping is an important tool to help your business or department to improve. By accurately mapping a process, and identifying where value and waste are, you can work with the teams involved to make it as efficient as possible.

Following this eLearning course, you will have the skills to accurately create a Current State Map, and understand how to mark up your Value Stream Map in order to identify areas for improvement. You'll gain an understanding of how to manage your process to match customer demand, and how to plan for the future without overstretching.

Our market-leading eLearning teaches you

the key elements, and then lets you put them into practice straight away through a series of interactive games and exercises. All of our interactive eLearning is optimised for all devices and affords you the flexibility to learn at your own pace and in your own time.

With one month's access to complete the training you'll have plenty of time to become an expert in your new skills! After the course, you'll have the confidence to begin Value Stream Mapping immediately and benefit from 100% Effective's lifetime support.

This Value Stream Mapping course comes with one CPD point.

100% Effective's online Value Stream Mapping training has a high customer satisfaction rating, with an average score of 5 stars out of 5.

Benefits

While this is a short course, and focused on one particular element of improvement, it is extremely beneficial to understand how we can identify opportunities in our workplace. You'll learn how to map any process and to identify where the value is and where you could improve – a vital skill in any industry.

Following completion of this Value Stream Mapping training you will:

- Have an understanding of the Value Stream and why we need to map it
- Have the skills to create a Value Stream Map
- Be able to use the Current State Map to identify opportunities for improvement
- Have a framework for creating a Future State Map
- Have a clear understanding of how to create, and use, an action plan

Course Content
